HOME BUILDING PROJECT

For the past seven years, Missions Mobilization has been collecting Vacation Bible School Missions offerings to purchase supplies needed to build longhouses for families in various areas of Sarawak, Malaysia. Each year, multiple volunteer construction teams and students have gone to work alongside these Malaysian families in the building of their new homes. These families would not have the financial resources or the necessary skills to build their homes without our help. Most are fishing or farming families whose homes have burned or been destroyed by natural disasters. Through the generosity of Mississippi Baptist children and their churches, and the sweat labor of our dedicated volunteers, these families now have a safe and decent place to live.

Over the years, the longhouse construction projects have made a significant impact on these villages. Our teams are building relationships to open doors to share the gospel first and foremost, as they work to build and provide housing. Through 2017, there have been 371 Longhouse units completed, and 608 people have prayed to receive Christ.

To receive information about how your church and VBS might participate in a special designated offering to help with supplies for building a Longhouse, call us. 100% of your gift will go to purchase building materials. To receive information about how to serve on a construction team in Malaysia, contact us.

There are also opportunities to serve in Malaysia through VBS ministry teams, serving through a local fellowship to reach out to their community. In some cases these VBS opportunities involve fellowships of Chinese and Filipino believers. Missions Mobilization has had extensive contact and partnership with the workers in this area. Contact us to find out more.

HOW CAN MY CHURCH GET INVOLVED?

Contact Mississippi Missions Mobilization for more information. Mike Ray, director. Cassie Munn, ministry assistant.
