Ministry materials: We will provide the materials.

Provide a brief description and purpose of Ministry/Project:

We have a wonderful facility that many churches in our region utilize for ministry camps, retreats, and conferences. However, it has need of renovations and remodeling. We have some money available for supplies and materials, but we need laborers to help us complete some of the projects. A team that wants to help send works can stay in our facilities for free and use our kitchens for their meals. Teams would need to choose which projects they want to accomplish and coordinate with our office to set a

time and allow us to buy the materials to have them ready for the teams when they come. Please find the list of projects below.
